

Pooping Babies

Young parents communicate
and they ruminate...
Did your baby poop?
My baby pooped
He pooped
pipity popity poop!
He is a super pooper
I call him boomer

How about your baby?
Is he a good pooper
a fine baby pooper?

Can he squat
when he goes plop?
or does it just come out
like a shout
a fast splat
or a blast in
his pants by chance
when he strolls along
humming his song
pippity poppity poop
