

OUR RATES

book publishing: editing and design services

We help writers publish their own books.

What we do depends on how much a writer wants or needs us to do and how much they want to do themselves, from editing to formatting the interior pages to designing the cover.

Rates: editing and design: \$30 an hour for proofreading/editing and simple interior formatting, \$80 an hour or more depending on complexity for book/cover design with us providing original artwork or \$50 an hour for book/cover design if the artwork is provided.

The way it works is the writer opens an account with a print-on-demand company (if they do not already have one) so that they have control of their book. The royalties* from sales go directly to the writer. *Royalties depend on things like the size of the book, choice of paper, color, etc., the type (paperback or hardback or e-book), and the retail price you choose.

web design / graphic design

We charge \$80 an hour or more depending on complexity for original artwork/design, and we may slide down to \$50 an hour for small businesses and non-profit organizations - sometimes less if a very small grassroots organization or very small 'business' like an artist or writer.

We offer a free consultation, so the first meeting (in person, on the phone or on Zoom) doesn't cost you anything.
