

OUR RATES

book publishing / editing and design

We help writers get their books ready to publish.

What we do depends on how much a writer wants or needs us to do, and how much they want to do themselves, from editing to formatting the interior pages to designing the cover.

See: <https://mudflatpress.com/book-editing-and-design-services/>

We charge \$40 an hour for simple interior formatting and for basic proofreading / editing.

We charge \$50 an hour for content / developmental editing.

We charge \$80 an hour or more depending on complexity for creating original artwork, and \$50 an hour for book/cover design if the artwork is provided.

web design and graphic design

We charge \$40 an hour for basic web design. We work almost exclusively in WordPress although we know how to speak basic HTML code as well.

We charge \$80 an hour or more depending on complexity for creating original artwork such as logos, and other graphic design. We may slide down for small businesses and non-profit organizations, sometimes less if for a very small grassroots organization or very small business such as an artist or writer. There is a quarter-hour minimum.

For sending email announcements via services like MailChimp & MailPoet, if it doesn't involve designing images, we charge \$25 an hour, with a quarter-hour minimum.

We offer a free consultation, so the first meeting (in person, on the phone or on Zoom) doesn't cost anything.
